

MATH 375 – QUIZ #1

- Your first quiz will take place next week.
- You will write during your tutorial time: T05 & T06 will write Tuesday, T01, T02, T07 & T08 will write Thursday, and T03, T04 will write Friday.
- The quiz is 50 minutes long.
- **You will have to write the quiz in the tutorial you are officially registered in. If you write in a different tutorial, your quiz will not be marked. This rule will be strictly enforced.**
- The quiz will be on *First Order Differential Equations*, **excluding** the *Applications*, and will consist of **six (06) equally weighted multiple choice questions**.
- It is a closed book/notes exam, calculators are not permitted, and no formula sheet will be provided.
- Finally remember that if you have a **valid** and **justifiable** excuse for not writing the quiz, the weight of the quiz will be added to the midterm.

Best of luck to all!
