

## **MATH 375 - Final Exam Info**

Dear All,

Your Final Exam is **Friday, December 16, at 12:00 noon.**

The exam is **2 hours long**, it is *closed book* and *calculators are not permitted*.

A formula sheet on Laplace transforms, Inverse Laplace transforms, Trigonometric identities, Fourier series and Sturm-Liouville problem will be attached to the exam. A copy of that formula sheet is posted on D2L under Exams.

The exam has **25 equally weighted** questions: **3 True/False** and **22 multiple choice**. 6 questions are on pre-midterm material, and 19 are on post-midterm material.

With the exception of Applications of First Order Differential Equations, **all other topics could be included in the exam.**

**L01 & L04** will write in the **Red Gym** and **L02 & L03** in the **Gold Gym**. Please be there **at least** 15 minutes before the start of the exam. Don't forget to check the seating list that should be posted nearby.

To prepare for the exam, review your lecture notes, study the examples covered in the notes. Make sure you know how to do the problems from the weekly worksheets, the assignments, the quizzes and the midterm. Once done, you could try the practice final that will be posted this weekend on D2L.

Best of Luck to All!

M. Aiffa

PS.

- Webwork assignment #5 has been extended to December 16.
- Your quizzes and midterm marks have been posted on D2L. Please have a look and let me know of any error or omission.
